600mm Deep Reception

Why 600mm deep?

Space is money as property and letting has risen to new heights in recent times, and so has the demand for more compact receptions. With technology having advanced and most offices using space saving flat screen monitors there is no real need for very deep desking space. Therefore Receptiv has the solution, with 600mm deep units to accommodate your needs without losing any of Receptiv's appeal.
